

In the conference series:
Universities and vital problems in the Black Sea Area

With the support of the Naval Academy

are proud to invite you to the

Conference on

ENERGY
an essential problem for the
Black Sea Area

Constanța, 18-20 septembrie 2008

held in connection with

the BS Universities Network meetings

18 – 20 Sep, 2008
Constanta, Romania

VENUE

The conference will be held at Constanta, the main Romanian port on the Black Sea coast and the fourth largest Romanian city.

Access ways:

- By air: Mihail Kogalniceanu airport of Constanta
- By car: A2 freeway (Bucuresti – Constanta), E87
- By train: railway station at Constanta (800 magistral)

Registration will be done on venue the general tax is **200 Euro**, although it may be waived in certain circumstances as decided by the organizers.

Registration will include the Proceedings of the Conference.

The working language is Romanian and English

Application deadline: 25.Aug.2008

The environment

Constanța has a moderate continental climate with considerable maritime and some Mediterranean influences. Constanța rarely experiences very hot days often found in the interior, because of the moderating influence of the Black Sea. The weather at this time of the year is particularly nice and warm at the seaside. The sun is shining brightly on the wide beach of Constanta, and the weather temperature is well above 20°C, inviting to swimming parties. Besides, the Black Sea shore landscape is delightful.

MAIN SPEAKERS

Acad.prof.Mircea MALIȚA-
Black Sea University Foundation Romania

Dr.ing Gheorghe BULIGA
Președinte, Asociația „Societatea Inginerilor de
Petrol și Gază”

Dr.Ionuț PURICA
Director executiv, Centrul de Consultanță
Energetică și Ambientală

Prof.univ.Nicolae Napoleon ANTONESCU
UPG Ploiești

Prof.univ.Marian RIZEA
ANI București

Dr.Nicolae PANIN
Director general, GEOECOMAR

Geolog Gicu BOROȘI
Director general, ANRM

Ing.Florin TOBESCU - Șef Dep. ANRE
Reprezentant: -Academia Navala TBD
-Universitatea "OVIDIU" TBD

Dott.Gianni Croce
President Advisory Centre for Energy and
Environment, ENEA

Prof.Flavio Fontana
ENEA

MAIN SESSIONS

Gas and Oil projects present and future

Romania and BS energy

Future energy resources in the BS

The role of CCEA and ENEA) in supporting the
penetration of clean energy technologies in the BS

Conference on
**ENERGY - an essential problem
for the Black Sea Area**

Constanța, 18-20 septembrie 2008

APPLICATION FORM

***If you wish to join in the programme,
please fill in the following application form:***

First name:

Last name:

Institution:

Position:

Payment of the 200 Euro can be made:

- in cash, at arrival
- by bank transfer

13:30 By the gracious invitation of the Naval Academy the participants will have the opportunity to know better the Black Sea through a short voyage on a special Sailing boat.

Contact and environmental data

During the Conference, The organizers' Office is situated at the Naval Academy Building

Registration will be done on venue the general tax is 200 Euro, although it may be waived in certain circumstances as decided by the organizers. Registration will include the Proceedings of the Conference.

The working language is Romanian and English

Deadline for application: 25.Aug.2008

The environment:

The weather at this time of the year is particularly pleasant at the seaside. The sun shines generously on the wide beach of Mangalia and the water temperature is around 20°C, inviting to swimming parties. Besides, the Black Sea shore landscape is delightful, with large orchards and vineyards. There are numerous remarkable remnants of ancient towns, starting with the period of the Hellenic colonization of the VIth century BC and continuing with those of Roman, Byzantine and Ottoman rules.
